

FUR in the FIRS

Dear All

It was with great shock and horror (once again) that I read the advertisement of a shop called Erich Fischer in The Firs in Rosebank. (See below).

Millions of wild- and domestic animals (yes, millions of dogs and cats too from countries like China, Korea, etc) are being beaten to death, skinned alive and caught in traps that cause severe pain and suffering to these animals. Dogs and cats are being bred in small, overcrowded cages and lead a life of suffering until their horrific deaths.

PLEASE write a short letter to the management of The Firs at thefirs@icon.co.za and help us to speak out for those who cannot speak for themselves!!! It took only one letter from me to stop the fur trade in the Fourways Mall.
